Tammy Wu, MD – Plastic Surgery

www.TammyWu.com

2336 Sylvan Ave., Modesto, CA 95355, (209) 551-1888

Dr. Tammy Wu is a Board Certified Plastic Surgeon who specializes in breast, face, and body contouring procedures such as tummy tuck and liposuction. Her practice includes Dr. Calvin Lee, a General Surgeon who specializes in veins, hernias, gallbladders, breast cancer and acupuncture. Both doctors perform botox and filler injections.

Dr. Lee, a general surgeon and acupuncturist, makes it a priority to assist Dr. Wu in surgeries and patient care. You have two doctors taking care of you.

In addition to superb surgical skills, our focus is communication. Many of our consultations take about an hour to ensure that we become partners in your surgery and that we share the same goals. In addition, our surgical patients have access to our cell phones to call with any questions, and email is also a possible means of communication.

We are a husband-and-wife team and treat our patients like family. We have been in practice in Modesto since 2003. We also provide interviews / information to students interested in an education at Brown University, where we received our college and medical school degrees.
